Run

Output

main.c

```
1 #include <stdio.h>
2 int main()
3 {
4     int num;
5     printf("Enter an integer:");
6     scanf("%d",&num);
7     ((num%2)--0)?printf("%d is even",num):printf("%d is odd",num);
8     return 0;
9 }
```

Enter an integer:3

3 is odd
